The Latest Important News from Europe.

Bombardment and Capture of Odessa!

GREEK INSURRECTION.

The Greeks Routed by the Turks!

French Ship Taken by a Russian Privateer

The latest news received from Europe is to May 6th.

We learn with pain and surprise, says an English paper, that an American clipper, the Grapeshot, has been prowling about the channel, and that she has captured a French merchant vessel off the Land's End.

Some excitement was occasioned, says the London *Times*, on Monday the 1st May, by the statement of a sailor, representing himself as Gaston Fonque, second mate of the French brig Ville de Marseilles, and who called on Lloyd's agent at St. Ives, Cornwall, with the report that he had swam ashore from a Russian frigate which captured his vessel. He stated that the capture took place twenty leagues from Cardiff; that the frigate first hoisted English and French colors; that the Captain and crew tried to escape in the boat, but were fired into, and the Captain and three men were killed. The frigate he reported to have gone up the Channel. The Admiralty instantly sent two steamers in search of the alleged frigate.

There are some doubts after all, that the vessel is the Grapeshot. It is stated that Captain James Wheeler, who arrived from New Orleans at New York, May 20th, reports having seen the bark Grapeshot riding at anchor off the Belize, on this day week.

The steamer Ercolarco was lost off Ville Franca. Fifteen English passengers were drowned, and five saved. Among the saved was sir Robert Peel.

FRANCE.

Large bodies of toops continued to march in the direction of Toulon for embarcation for the Levant.

The imperial decree calls into active service, on land and afloat 80,000 men, from the 140,000 of the class of 1853.

The batteries at the mouth of the Darube have been bombarded by the Allied fleets.

April 22d, the Allied fleets destroyed in a few hours all the fortifications, batteries and the military store. Two powder magazines blew up, and 12 vessels of war were sunk. The merchant vessels were saved. Loss of Allies only five killed and six wounded.

Thirteen Russian vessels, laden with munitions were taken.

The British steamer Fury, of six guns, on the 11th April, steamed under American colors within three miles of the entrance of Sebastopol, where she saw two merchantmen, two brigs, two frigates and a steamer leaving the harbor. The Fury dashed in and seized one of the merchant ships and towed her off. The Russians gave chase and the Fury was obliged to cut the prize adrift, but not until one of the frigates and the steamer came within range and exchanged shots. The Fury after four hours chase, succeeded in eluding the Russians and carried off the merchant ship's crew as prisoners, who gave important information respecting the strength of Sebastopol.

A bold and successful feat is also recorded of the Russians. A steamship, supposed to be a Russian dispatch vessel, under British colors, boldly steamed from the Archipelago, passed the Dardanelles and batteries and succeeded in entering the Black Sea.

BATTLE BETWEEN OMAR PASHA AND GENERAL LUDERS—DEFEAT OF THE RUSSIANS!

The following important dispatch was telegraphed from Vienna, of date May 3d:

It circulates in Bucharest that on the 18th or 19th of April, Omar Pacha advanced with 70,000 men towards the Dobrudscha, and a battle took place with Luders corps between Silistria and Rossovich.

On the 25th April, Arta, Greece, was taken by the Turks, and 3,000 insurgents under Karaiskaki were defeated by the Turks under Omar Pasha. Many Greeks attempting to join the insurgents have been taken by the French ships, and have been delivered over to Faud Effendi. An attempted insurrection in Samos has failed.

OPERATIONS IN THE PRINCIPALITIES.

The Russians have deprived the Walachians of every description of weapon—even of scythes and axes.

The Paris correspondent of the Paris Constitutional, saw twelve Polish officers shot near Bucharest. One of the officers was a Colonel, and they were accused of an intention to desert to the Turks.

SERVIA AND MONTENEGRO.

Many reports were current to the effect that the Austrians had entered, or were preparing to enter, Montenegro, but these rumors had no guaranteed authority.

A Scutari correspondent of the Oest Deutsche Post, states that forty Russian veterans were drilling the Montenegrins. By his summons to his people, Prince Daniel had *de facto* declared war against the Porte. Hostilities began on the 19th, near Sliva, on the road to Nicksich. Two hundred armed Montenegrins, under the command of the Voivode, George Petrovitch, attacked a Turkish convoy of prisoners and ammunition, which was on its way from Nicksich to Grahovo. A Turkish detachment came to the rescue, and the Montenegrins were repulsed.

RUSSIA.

THE BALTIC FLEET.—We have nothing new of importance from this quarter. The fleet was keeping up a blockade of all the Russian ports.

Sir Charles Napier was still at anchor about four miles from Stockholm. The ice was breaking up, and it was expected that Cronstadt would be open by the end of April.

A most formidable force of row-boats is being organized by the Russians to harrass the invading fleet from the shallow waters. Eight hundred well armed boats are already enrolled. All the boats of the Neva Yacht Club are placed at the service of the State. A considerable number of these are assembled at Sweaborg and Cronstadt. Sir Charles Napier is so well aware of the formidable nature of this force, that he has hastily applied to his government for a fleet of small steamers that may penetrate wherever rowboats can.

Sir Charles Napier had held an audience with King Oscar of Sweden, in which it is stated that the Swedish King expressed his sympathy for the allies.

The Danish government lingers on the side of Russia. The Swedes are decidedly in favor of the allies. One Swedish line-of-battle ships and four frigates were in commission at Copenhagen, and more were being made ready.

The gold that is usually stored in the citadel of St. Petersburg is being removed to Moscow. In St. Petersburg a war tax is levied of 300 silver rubles on merchants of the first guild, 160 on merchants of the second guild, 100 on merchants of the third guild, and 10 per cent. on all house rents. The Emperor is extremely active, and goes backward and forward between Cronstadt and St. Petersburg almost incessantly.

Several regiments of guards are ordered to Finland.

Prince Paskiewitch had granted permission to neutral ships at present in the different mouths of the Danube to depart freely until the 20th of May.

PRUSSIA.

The Prussian government that allowed arms to pass to Russia, stops accoutrements for Sweden. About 8,000 helmets were sent to Stettin from the Swedish Embassy, in order to be shipped across to Stockholm. An order had been received on the 1st of May prohibiting their transportation.

A dispatch dated Berlin, May 1, says:

"The news is considered confirmed here, that a grand and final attempt is being prepared at St. Petersburg for gaining over Prussia to the side of Russia. The bait is to be a treaty of commerce. It is supposed the Czar, if not from political motives, is willing to conclude it, since the total drying up of his revenues from import duties and the rapid growth of the smuggling trade must soon convince him how ruinously his commercial system is acting on his his own empire. No treaty of commerce has been made between the two countries since 1326, and it was suffered to expire in 1836. The news of the bombardment of Odessa has produced a very favorable impression on the Exchange here."

SPAIN.

The Black Warrior difficulty has not yet been adjusted. Mr. Soule claims the sum of $300,000 as an indemnity.

The official organ at Madrid says that all the slaves in Cuba will be emancipated in the event of a war with the United States, "rather than the Island shall fall a prey to their ambition."

$600 REWARD!

WILL be paid for the apprehension and safe return to the Sheriff of this County, of

THOMAS H. COWIN,

who broke Jail on the night of May 19th, 1854, and who is a man about 26 or 28 years of age, about 5 feet 9 or 10 inches in height, rather stout built, sandy complexion, and somewhat freckled in the face, with light colored hair and eyes, very heavy sandy beard when long, and rather a large full face and head; when in conversation he is quite intelligent, but very iritable and violent when opposed in his opinions.

—ALSO—

LEWIS WILEY,

a negro, who broke Jail at the same time, and is supposed to be about 30 years of age, of light mulatto color, with a long, sharp face. When he left he had whiskers, and is about 6 feet in height, somewhat slow spoken—no peculiarities or marks about him remembered.

Four Hundred Dollars will be paid for the arrest of Cowan, and Two Hundred Dollars for the arrest of Wiley.

THOMAS LAWSON vs. M. J. Box, Walter B. Graham, Wm. T. Ray.

In the District Court of the Fifth Judicial District, held in and for Mariposa county, State of California, A. D. 1854.

It appearing to me upon the affidavit of Samuel A. Merritt, Attorney for the plaintiff in the above entitled cause, that the defendants M. J. Box, Walter B. Graham and Wm. T. Ray cannot, after due diligence, be found in this State, or that they conceal themselvs so that a summons in this case cannot be executed upon them; and further, that the plaintiff has a good cause of action against the defendants, and the said defendants are proper parties to be made defendants to this action: It is therefore ordered, that service of the summons in this case be made by publishing the same once a week for three months in the Mariposa Chronicle, a newspaper published in the village of Mariposa, in this State.

Given under my hand, at Mariposa, this, the 27th day of March, A. D. 1854.

COURT OF SESSIONS.

This Court met Tuesday, June 20th, pursuant to adjournment. Present, Hon. J. M. Bondurant, and Associate Justices Washburn and Sharp.

The following rates of taxes were ordered to be levied and collected and appropriated as hereinafter provided, viz: 60 cents on each $100 for State tax; 50 cents on each $100 for county purposes; 25 cents on each $100 for public buildings; 5 cents on each $100 for school tax; 30 cents on each $100 for interest on funded debt; $3 poll tax for State and county purposes, and $1 poll tax, for sinking fund.

The above poll tax of $4 is levied on all persons between the ages of 21 and 50 years.

Upon the suggestion of the County Surveyor, it was ordered that Charles, Bullion and Jones streets be extended to Missouri Gulch, and additional cross sts. opened, extending from Jones street to the Mariposa, at a distance of 250 feet apart except 7th and 8th streets, which will be 650 feet apart.

The road commencing at junction of the roads leading from Phillips' upper and lower ferries, near L. P. Wilsons, thence by the stage road to the Tuolumne line, was declared a public highway.

The following bill were ordered paid—A. F. Washburn, $165 25; Mariposa Chronicle, $18 00; J. Boling, $30 00, $25 90, $254 00, $227 00; Isaac Lyons $69 00; E. C. Bell, $167 87, $1.336 00, $1,513 30, $195 50, $300 00; A. F. Washburn, $16; Lewis Sharp, $32; — Jones, $117.

The plans and specifications of Mr P. V. Fox, for a Court House, were adopted, and notice ordered published, inviting proposals for the erection of the same, to be opened by the Court of Sessions on the 21st July. Court adjourned.

FIRE.—Last Wednesday morning about 2 o'clock, the inhabitants of this place were aroused from their slumbers by the startling cry of fire, which was caught and re-echoed by each anxious individual as he awoke to the fearful calamity impending over our growing town.

The fire was discovered to proceed from the house of Eliza Burns, which was entirely consumed, with its contents. Loss estimated at about $1000. It is supposed to have been the work of an incendiary, as the owner of the house was *absent* at the time of the fire. Fortunately, no air was stirring at the time, or no earthly power could have saved the town from utter destruction.

THREE DOLLAR GOLD COIN.—We have received a specimen of this beautiful coin, through the attentive kindness of Messrs. Adams & Co., for which they will please consider us much indebted to them. On one side of this coin is a head emblematic of America, with the Indian head dress of feathers, and the word "Liberty," as in the ten dollar piece, with the inscription "United States of America," surrounding the whole. On the reverse side is a wreath composed of the chief staple productions of the country—wheat, cotton, tobacco, &c.—encircling the denomination and date. Altogether, this is one of the most beautiful and best executed coins we have ever seen.

PERSONAL.—We regret to chronicle the departure from our midst, last Monday morning, of Mr. Charles G. Gray, for a long time Deputy County Clerk. Mr. Gray has been a resident of California since '49, and of this place since '51. His courteous and gentlemanly bearing gained the respect and esteem of all who knew him. We cordially wish him a pleasant voyage and a speedy return.

AGREEABLE RE-UNION.—We had the pleasure of being present at a lively, and we must say very pleasant dancing party, given by Mr. Joseph Whittier in Agua Frio on the evening of the 15th inst. The attendance was large, and the fair sex well represented. Mr. Whittier, assisted by the Major, is well calculated to do the honors on such occasions, and we doubt not will be frequently called upon to do so.

STOCKTON JOURNAL.—The ownership of this paper has passed into the hands of Messrs. B. W. Owens and Sam Knight.—Mr. Tabor still maintains a connection with the Journal as Editor.

Almost since the first discovery of gold in California, the subject of quartz mining has attracted a large share of public attention, both at home and abroad. Many speculations have been advanced by parties as to the probable future advantage to be derived from this branch of industry, and many attempts have been made in different parts of the State, to make the pursuit return a fair profit on the labor and capital invested; but in many cases they have resulted in complete failures, owing in many instances to the difficulty of extracting the gold from the quartz by the aid of the miserable machinery almost in universal use in California. Recently, however, many improvements have been made in quartz crushing and amalgamating apparatus, and we may reasonably look forward to the time, not far distant, when this branch of industry will become almost the engrossing employment in the mineral regions of the State. An immense outlay is absolutely necessary to conduct quartz mining operations with any prospect of success; and to induce capitalists to invest in the business, some needful protection other than now existing, is necessary to develop the riches of our quartz veins. Professor Trask in his report to the last Legislature, speaking of quartz mining, says:

"Aided by the discrepant, and in many cases malicious reports from our own hills, the savans of the Atlantic States and Europe reiterated the howl, and the public of those distant shores were nightly harangued in the lecture room, and popular assemblies, on the utter *impossibility of the auriferous veins of this country proving to be more than a mere ephemeral show.* and unworthy the confidence of reflecting minds. Their gratuitous expressions and unfavorable opinions, are now proved from the subsequent explorations which have been conducted on these viens, to be equally unfounded as were the arguments made use of by these men to convince their listening audiences of the *supposed facts* they so fearnedly set forth.

"Notwithstanding the disadvantages of manufactured public opinion, with which this branch of industry has been obliged to contend, and the serious obstacles which have thus been presented to its progress, should it meet with no other impediments than those which are the resultants of nature, it will obtain a position second to none, within the next two years."

This may be considered as almost decisive, coming as it does from a gentleman of such solid attainments as those possessed by the Professor, and the sooner his opinion is realized the better. Then will the time have arrived when Mariposa will be the Empire County of California, and its influence be felt far and near; then will the prophecy of the "good time coming" be literally fulfilled.

PROLIFIC.—Several stalks of the beautiful oats, says the Sacramento Union, grown on the prairie east of this city, were laid upon our table yesterday by Mr. Joseph Hull. On one of these stalks, the head of which is three feet long, are no less than *seven hundred and eighteen grains.* The most remarkable fact in connection with this prolific yield is, that this grain was raised on soil which has heretofore been considered barren and almost worthless.

The Mountain Messenger says we are informed by a gentleman that the well fenced farms and fine crops of hay and grain in the American Valley, made him forget that he was in California, but he was suddenly "brought up all right," by being told by the blacksmith that it would be impossible to shoe his horse then, because the Grand Jury was occupying his shop.

NEW GOLD MINES.—It was reported, says the Alta, when the brig Mary A. Jones left Mendocino, that gold had been discovered at Eel River and Big Valley, about 40 miles from Mendocino. Miners were making, on an average, ten dollars per day.

CALIFORNIA CHARACTERS AND MINING SCENES.—We have received from the publishers, Messrs. Bonestell & Williston, San Francisco, a neat pamphlet with the above title, embellished with a number of spirited engravings. Many of the scenes are delineated in a spicy style, which will prove highly acceptable to the many who have toiled in the mines of California.

THANKS.—We are indebted to Messrs. Adams &c., through their very attentive agent, Mr. Gardner, for the first supply of Eastern papers by the last steamer

We also are under obligations to Messrs. Wells, Fargo & Co., and Mr. G. W. Stelle, for full files of late Eastern and California papers.

STAGE LINE.—By reference to our new advertisements, it will be seen that Messrs Clark & Co., have established a stage line between Sonora and Coulterville, connecting with the Stockton stage. The community in that section have long needed this, and we hope it may be liberally supported. How long will it be before we have stage communication between here and Coulterville? Can any one tell?

CALIFORNIA FARMING.—The Sacramento Union says that Mr. Hicks, on the Cosumnes river, has eight hundred head of milch cows, which he turns to account in the manufacture of cheese, a ready market for which is found in Sacramento. Mr Hicks is, probably, the most extensive stock raiser in the State, and will doubtless soon be the owner of the banner ranch of California.

IMPROVING.—By the Stockton Journal we learn that last Saturday was a regular gala day in that place. Two shooting scrapes, half a score of fisti-cuffs, two duels, and two street fights, were among the amusements of the day, and it was not a very favorable day for fun either.

KERN RIVER.—The excitement concerning these newly discovered diggings, has about subsided, and from what we can gather from persons just returned from Fort Miller, and the neighboring country, we have arrived at the conclusion that the richness of the Kern river mines has only existed in the imagination of some sanguine prospector. We were impressed with this belief, at the time when the first reports reached us; but the communication which we received from Millerton, came from a source so respectable that we could not refuse its publication.

We know what it is to run after new and rich diggings—having done something in that line ourselves—and we have a sort of fellow feeling for unfortunates of this class. We heartily wish them all "better luck next time."

WHITLOCK'S CREEK, June 20th, 1854.

Messrs. Editors:—As you perhaps would like to hear of others doing well, (if you cannot do well yourselves,) we have the pleasure of informing you that George Stewart, (commonly known as "Dutch George," & Co., struck new hill diggings on Whitlock's creek, on last Saturday, and took out $50 in the first half day. They are now making preparations to work it on a pretty extensive scale. Hoping that they may take out their "pile," and send you a "Chispa Bonita," we have the pleasure of being

Your ob't serv'ts,
H. STEGEMAN & Co.

Occasionally a *few* dollars are still found in the Mariposa by those who are willing to hunt for them. One day last week Messrs. McGrann & Co., who are working a claim a few hundred yards below town, took out $126, 5 ounces and $6 of which was in the shape of a specimen of the pure stuff nearly 4 inches in length, and about 1 in width, now in the possession of Mr. John H Neale of this place. The next day after the above, the same party made $102. This is certainly rather encouraging wages for a company of only four men.

MORMON BAR.—At Mormon Bar miners are making excellent wages. This has long been a favorite mining place, a great many of our old miners having realized snug fortunes in that neighborhood.—Messrs. Powell, Garrett, Hillman and Bachman, among others, have all done well there, and what speaks loudest for the camp is, that nearly all the claims on the Bar are still worked by those who have been, we may say, permanent settlers there for the last three and four years.

AGUA FRIO.—This camp is now nearly deserted, on account of the scarcity of water. There is not a camp in the county that a miner can make better wages in during the winter season, but unfortunately during the summer, scarcely anything can be done. Had we a water ditch from the Merced or San Joaquin rivers, thousands would be at work, where now a few idle miners are watching their claims.

CARSONTOWN.—A great many miners have left this place lately, on account of the scarcity of water. A French company, above the town, have sunk a well from which they derive sufficient water to run three toms, and make on an average at each from $9 to $10 a day to the hand Why would not the plan of sinking wells operate equally well in some of our other dry camps?

GUADALUPE.—This section of the country has gone over to China. The Chinese are content with smaller wages than any other nation, but we think, in this particular locality, they are making more than average wages. They are making on the creek, from $3 to $5 per day to the hand. The hill claim of Mr. Marshall, which paid so well this spring, has commenced paying good wages again. Below the falls, miners are doing very well.

RACE.—A match race is to come off on the 4th of July, on Eel river, between Mahoney's trotting horse "Jim," and Dr. Feil's mare, Lightfoot. Stakes—three thousand pounds of potatoes a side.

The Sacramento State Journal says that foot racing is quite fashionable among "the bloods" of that place.

At the special election held on the 14th instant, in Calaveras County, the people refused, by a very large majority, to divide the county.

The Whig State Convention has been called at last, and will assemble at Sacramento, on the 25th of July next, after the Democratic Convention.

SODA WATER.—Messrs. Krafft, Howell & Hice, manufacturers of soda water, are constantly on hand with the "best the market affords" in their line. A glass of pop during this hot weather is very refreshing.

Judge Marvin has announced himself a candidate for the Legislature before the people of Stanislaus county.

The Masonic Fraternity of Columbia and vicinity will celebrate St. John's day by a procession, oration and dinner.

The establishment of the Marysville Express, was sold by the Sheriff on Saturday last.—*J. Republican.*

Late Atlantic News.

The Mail Steamship Golden Gate, arrived at San Francisco on Wednesday the 14th inst, with sixteen days later dates from the Atlantic States. There is no political news of much importance.

The destruction of life and property by wrecks and disasters on the Atlantic has been terrible.

We give the most interesting items below:

Hon. Edward Everett has resigned his seat in the Senate, on account of ill health.

CALIFORNIA LAND CLAIM.—The following extract from the Washington correspondence of the New York Journal of Commerce, of May 18, will be found interesting to many of our readers:

The business of the Supreme Court, at its present term, is full of public interest. The case now under argument is one of the most important ever decided by that tribunal. It is that of Cruz Cervantes on appeal from the United States Circuit Court for California, before Judge Hoffman.

The leading counsel for the plaintiff is William C. Jones, son-in law to Colonel Benton. His address to-day was marked by legal learning and acuteness. The Attorney General will reply to-morrow.

The decision in this case will determine the titles to lands in California, valued at hundreds of millions of dollars. If the Supreme Court agree with Judge Hoffman, nearly all the grants and donations of the Mexican Governors since 1824 will be declared invalid and void, and the lands embraced in them will become public property, and will be disposed of like the public lands in other States. All the mineral lands will be immediately covered by miners, who will practically assert the doctrine of squatter sovereignty, as against the government and all "the rest of mankind."

TERRIBLE STEAMBOAT DISASTER.—The steamboat Pike, of the Louisville and St. Louis Line, was wrecked on the Mississippi river, on the passage from the latter port, and forty and fifty passengers lost.

The Washington Union in an article on our relations with Spain, remarks:

We are quite free to state—and in terms so emphatic and unequivocal as to admit of no misinterpretation—that if ample satisfaction is not allowed for the piratical seizure of the Black Warrior, we shall advocate an immediate blockade of the island.

The New York Tribune says, it is an even chance that we shall be at war with Spain before the 1st of July, and that Filibuster preparations for the invasion of Cuba, were never more active and formidable than they now are.

The trial of ex-Collector Collier has terminated, and the Jury found for the government, leaving the amount of defalcation to be fixed by the Judge, who has reserved his decision.

Mr. Morton, of Florida, on the 10th of May made a report to the United States Senate in favor of the purchase of Mt Vernon by the government, and the establishment there of an Agricultural School, under the same sort of government as the Military and Naval Academy.

Both Houses of the Pennsylvania Legislature adjourned *sine die* on the 9th inst. Previous to the adjournment of the Legislature, a moderately stringent liquor bill was passed. It is not quite so severe as the original Maine Law, but is nevertheless deemed sufficient to answer the required purpose.

A Washington letter states that the project for the purchase of the right and interest of the British Hudson's Bay Company and the Puget's Sound Agricultural Company has been renewed.

It is stated that a large body of Poles and Hungarians, from various parts of the Western States, left Cincinnati on the 26th April, for New York, en route for Europe, for the purpose of joining the Turkish Army.

A Government train was attacked by the Indians about seven miles from Fort Ewell, in Texas, on the 1st of May, and five men were killed, besides several wounded and unheard from. One hundred mules were run off.

EMIGRATION FOR CALIFORNIA.—The St. Joseph. (Mo.) Gazette, speaking of the overland emigration, says the number of emigrants and stock will be much larger this spring than was anticipated. Up to the first day of May there had crossed the river at the St. Joseph Ferry, 7,858 head of cattle, 220 wagons, 588 horses and mules, 1,120 men, women and children. As many more will yet cross there.

Several families, consisting of sixty persons in all, passed through San Antonio, April 20th, for California by the overland route. They had strong wagons and good teams, a large number of cattle and horses, &c., and seemed well armed with trusty revolvers and other instruments of war. A large number of trains have passed through San Antonio, for the same destination, and are prospering well on their journey. Late accounts from the Plains represent that the overland emigration to California and Oregon had advanced as far as the Platte, and that the parties were getting along admirably. Grass was very fine as far as Fort Kearny.

KNOW NOTHINGS.—This organization has been creating some excitement in New York. One of its members, named Elliott, charged three others with breaking into his office and taking away the charter, books, money, &c., of the organization. An investigation was had and the accused were discharged.

The emigrant ship Winchester, of Boston, bound to that port from Liverpool was foundered at sea. Four lives were lost, and the remainder were taken off by the ship Washington.

The packet ships Montezuma and William Layton, went ashore in a fog near Squam inlet. No lives lost.

The election for U. S. Senators, in Connecticut, resulted in the choice of Francis Gillette, Abolition whig, and Lafayette Foster, whig.

The Imlay Mills at Hartford, have been destroyed by fire.

A terrible explosion took place in the coal mine called the "English Coal Pits," in Chesterfield county, Va., 14 miles from Richmond. About twenty lives were lost.

The Nebraska Bill was still under discussion in the House of Representatives. The House had resolved itself into a Committee of the Whole, and the final vote was to be taken at 12 o'clock on the 20th. By a telegraph dispatch on the 20th, we learn that no vote was taken, the question being still under discussion, without a probability of reaching a vote before Monday. It was thought the bill would pass.

The Pacific Railroad Bill was deferred till the 24th.

The caloric ship Ericsson has been raised. Her hull and engines are comparatively uninjured. Loss by damage to the furniture and internal decorations of the Ericsson is about $30,000.

The Supreme Court were busy in discussing an important land case, involving the validity of all grants of land made in California by Spain since 824.

The steamer Isabel had brought news to Charleston that the authorities of Havana had received from Spain the approval of that Government of the conduct of the Captain-General in the Black Warrior affair. It is stated that a number of officers have been sent from Cuba to the U. States to watch the movements of the Filibusters.

It is further asserted that in case of war with the U. States, slavery is to be abolished in Cuba, and the slaves all armed. Many European families were leaving Havana in anticipation of trouble.

The steam tow-boat Pennsylvania burst her boiler near Bordentown, killing three persons.

The large morocco factory of Mirick & Bros., in Brooklyn, has been destroyed by fire.

The ship Hope, of Philadelphia, lying at Mobile, was destroyed by fire on the 17th ult.

The steamship City of Glasgow has not yet been heard from.

Clara Hayes, tried for the murder of Dr. Lutener, in New York, has been acquitted

On the 19th May, no less than 12,471 emigrants arrived from different parts of Europe at New York.

Hon. Rufus Choate has resigned the Attorney Generalship, and Hon. J. H Clifford has been recalled to the position. It is rumored that Gov. Washburn has tendered Mr. Everett's place to Mr. Choate.

Matt. F. Ward publishes a card in the N. O. Delta, addressed to the "Editors of the United States," asking a suspension of opinion in regard to the murder of Mr Butler un il a full report of the trial, now in press by the Messrs Appleton, of New York, is published.

A suit of Edwin Forrest against N. P Willis, for a libel published in the Home Journal, has been on trial in the Court of Common Pleas. The jury were unable to agree. The damages were laid at ten thousand dollars.

From 20 to 25 deaths from cholera occurred among some German emigrants on their way from New Orleans to St Louis, on board the steamer Dresden, which arrived at St. Louis, May 8th,

CATTLE THIEVES CAUGHT.—For some time past the mountains of Contra Costa have been infested with a regular organized band of thieves, who have driven away a large number of cattle. Within the fortnight Don Guillermo Castro has lost no less than four hundred and eighty head of fat cattle. One night last week the corral of widow Bernal was broken down, and her tame cows, thirty-six in number, were driven off, leaving their calves to perish. Last Saturday, he vaqueros of Castro succeeded in capturing six Dutchmen, who have long been suspected of being engaged in this business, in the act of driving off a lot of cattle. In attempting to escape, one of them was killed and one wounded.—*Herald*

A serious difficulty occurred at Greytown, on the arrival of the steamer from New York, between the natives and a number of foreigners. Minister Borland and the American Consul, attempted to protect the latter, when the natives assaulted the house of the Consul and Mr. Borland was seriously wounded in the face. A company of about fifty men was organized under the command of Crawford Fletcher, to protect American citizens and their property. Soon after a British steamer came in, and the control of the place was given up to the English Consul.

WAR-LIKE.—The British mail steamer Africa arrived at New York since the declaration of war, came into port heavily armed, and with port holes open, ready for a brush with the Russians. The New York Mirror suggests that passengers would do better to travel under the American flag.

BABY SHOW IN CANADA.—A baby show in Bytown, Canada, on the 2d May, the prizes were $60 each to the three largest, fattest and handsomest babies. There were but two babies presented, one 16 and the other 17 months old, each of whom received a prize. After some appropriate speeches by the judges, one of the lucky mothers made the announcement that "she should have another baby to show at the same time and place next year, if there was a premium to be given," which caused rounds of applause.

DIFFICULTY NEAR FORT MILLER.—We learn from a gentleman, who arrived in this city yesterday afternoon, says the Stockton Argus of the 21st, from Millerton, that on Sunday night last, there was a fight between the Indians and Chinese, in which two Indians were killed. The soldiers from the Fort quelled the disturbance. Several Chinamen were arrested.

OCEAN TELEGRAPH.—By late advices, it appears that a company in New York have actually received a charter under the title of the "New York, New Foundland and London Telegraph Company," for the purpose of establishing a sub-marine telegraph between New Foundland and Ireland.

We learn from the San Joaquin Republican that quite a number of shares have already been taken in the Stockton and Sonora Telegraph Company. It is estimated that from five to eight months will be required to put the line in working order, and that the cost will be about fifty thousand dollars.

FIRE.—Wm. A. Ward's slaughter house in Stockton, was consumed by fire on the morning of the 21st.

We acknowledge the receipt of a polite invitation to attend a ball at the Garden Ranch, Mt. Ophir, last evening.

TUOLUMNE COUNTY POLITICS.—The Tuolumne County Democratic Convention met at Jamestown, on the 17th inst. The principal issue was between Messrs. Scott and Coffroth, the former Anti-Broderick, and the latter a strong Brodericklite. They are both aspirants for Congressional honors. The result of the proceedings was that an entire delegation of Anti-Broderick men were elected to the State Convention, by more than a two-third vote.

Mr. J. W. Mandeville, (anti-election,) was nominated for the State Senate, and Messrs. E R. Galvin, S. S. Cook, J. A. Quinn, and F. Amyx, for the Assembly.

We apprehended a precisely similar result in this county, believing as we do that Mr. Broderick, and the course pursued by himself and friends, are alike offensive to the people of Mariposa County, irrespective of party.

The Los Angelos Democratic County Convention met in Los Angelos on the 8th inst., elected three staunch anti Broderick delegates to the State Convention by a nearly unanimous vote.

The primary elections as far as heard from in the county of San Francisco resulted in the election of 16 anti-electionists and 21 electionists or Broderick men.

Verily we believe that the reign of King David is drawing to a close.

That sixteen anti-electionists should be elected in that place, is a subject of congratulation to all who have the interests of the State at heart.

ANOTHER DREADFUL SHIPWRECK.—On the 1st of May, the Peruvian government transport Mercedes, while on her passage from Cosma to Callao, struck upon a rock near the mouth of Cosma harbor, and shortly after sunk. She had 800 troops on board of which *seven hundred and thirty-one* perished.

SPORT.—A race for $100 a side comes off over the Mariposa track to-morrow.

Declaration.

STATE OF CALIFORNIA, }
COUNTY OF MARIPOSA. }

IN ACCORDANCE WITH AN "Act to authorize Married Women to transact business in their own name as sole traders," approved April 12th, 1852, I, the undersigned, CATHARINE J. F. SHOBE, wife of Allen J. Shobe, resident of the county of Mariposa, by these presents declare that it is my intention to carry on business in my own name, and on my own account, in said county, in buying and selling stock, keeping a ranch, and in buying and selling goods, wares and merchandize in general, and to invest such part of my means, and the increase thereof, in such way and manner as may be most to my interest. And I further declare that the capital invested originally, does not exceed the sum of five thousand dollars.

In testimony whereof I have hereunto set my hand, this 15th day of June, A. D. 1854.

MARIPOSA CHRONICLE.

DISTINGUISHED MEXICAN.—General Commonfort, who arrived on the steamer Golden Gate, took quite a distinguished part in the history of Mexico. He was in command of the forces at Acapulco during the late revolt of General Alvarez against Santa Anna, and is esteemed by his countrymen as a true republican and gallant soldier. He commanded the Castle at Acapulco at the commencement of hostilities between the forces of Alvarez and Santa Anna. Parties who arrived in the Golden Gate with General Commonfort, says the Alta, mention a report having reached Acapulco previous to the sailing of the steamer to the effect that several of the Northern Mexican States on the Atlantic side, had declared against Santa Anna on hearing of Alvarez's success.

THE FOURTH.—From the Mountain Messenger we learn that extensive preparations are making in that vicinity for the celebration of the birth day of American Independence. An oration, dinner, and three balls are all to come off.

What are the people of Mariposa doing—has the memory of the "days of '76" entirely passed away? We think, if a very slight effort was made, that something could be done in honor of that great day, the remembrance of which should be kept alive by every possible means.

POTATOES OF THE CROP OF 1853.—In the last number of the California Farmer, the Editor, describing a recent trip to San Jose valley, says:

We venture to assert that the potatoes that will lay upon the ground and rot in the San Jose valley the present year, will count in bushels by millions. We saw one pile that was the length of 80 rails of fence, (ninety-six feet,) about thirty feet wide, and some two feet above the fence, seemingly enough to supply the State.—These, with vast quantities all over the county, and other counties also, will be lost unless some plan is devised for using them.

The people of Oatville precinct, Stanislaus county, at their election of Delegates to the Senatorial and County Conventions, adopted unanimously the following resolution:

Resolved, That the course pursued by the Hon. Wm. M. Gwin, in the Senate of the United States, meets the entire approbation of the members of this Convention; and as a testimonial of our appreciation of an honest, able and faithful public servant, it is the sense of this Convention that our delegates be instructed to use all fair and honorable means to secure the re-election of that distinguished individual."

ANNEXATION.—The S. F. Evening Journal has seen a communication from a resident of the Sandwich Islands, which conveys the assurance, that the rough draft of a *project* for the annexation of the Sandwich Islands to the American Union, has been sanctioned by King Kamehameha and his advisers, and will go forward to Washington by the next mail steamer.

DEBT.—The public debt of Great Britain is said to amount to the enormous sum of three thousand nine hundred and seventy millions of dollars, or about one hundred and ten dollars for every inhabitant of Great Britain and Ireland.

THE CHINESE.—One of the first regulations established by the pioneer miners of Kern river, was not to allow a Chinaman, under any circumstances, to enter the diggings.—*S. J. Republican.*

Don't believe it.

POPULATION.—Several hundred Mexicans have arrived in this neighborhood during the past two weeks.

TO THE TRADERS OF THE SOUTHERN MINES.

☞ It is a fact much to be lamented, that the City of Stockton, through the want of enterprise by her mercantile community, has lost, for the past two years, the greater portion of the best trade of the Southern Mines. We propose to remedy this evil.

We ask you, why do you not buy your Goods in Stockton, and patronize our City? You reply at once that prices of merchandise, in Stockton, are held at 10, 15, and 25 per cent. above the jobbing prices in San Francisco. Heretofore, we must admit this to be the fact, but must CONTINUE SO NO LONGER. Stockton must assume the position nature designed for her—per centage must be reduced—Inducements MUST be held out to heavy buyers, who pass through to San Francisco and make their purchases for cash. The fact is, goods must be furnished in Stockton at *San Francisco Jobbing prices, with Freight added*. We propose to furnish goods at these rates. We *can* and *will* do it. Our facilities for purchasing in large lots warrant us in advertising to this effect, and we call upon the Merchants and Traders at Mariposa and the surrounding country to give us a trial and satisfy themselves whether or not we will prove our assertions correct.

Mariposa is a large town, a great amount of business is transacted in and about it, shrewd business men are engaged in its trade, competition is strong, and goods must be bought at the lowest rates for your market. All this we are fully aware of, and it is far from our intention to humbug or deceive in our efforts to secure your patronage to our city.

It is certainly more convenient for you to purchase your goods in Stockton, if the rates will justify. The loss of your patronage to San Francisco will be nothing—the gain for Stockton will be immense,

Call and satisfy yourselves.

UNDER THE MANAGEMENT OF W. W. WARNER.

THE Proprietors of this new and spacious Hotel, have the pleasure in announcing to the public that they are now prepared to accommodate all who may favor them with their patronage.
The Weber House is the largest Hotel in Stockton, and being situated in the most pleasant and healthy portion of the city, as well as the centre of business, offers inducements to the resident or traveller seeking a home, that can be found in no other establishment in the Southern Mines.
The several apartments attached to this house, are furnished in a style unsurpassed by any establishment of the kind in the country.
The Table will be supplied with every variety of the season, and all the substantials the market affords, and the Bar with the choicest Wines and Liquors. In short, the Proprietors beg leave to assure the public that no effort shall be wanting on their part to make the Weber House in every respect the most comfortable house in Stockton, and fully adequate in all things to the wants of their patrons. j27-tf

MARIPOSA CHRONICLE.

A POEM ON RECEIVING A LETTER FROM MY MOTHER.

BY J. R. B.

Dear mother in a distant land,
My heart leaps quick to see
The traces of that tender hand,
Which once supported me:
When round thy neck my little arms
Were flung in childish glee,
Or when, a helpless babe, I leaned
On thy sustaining knee.

And in my boyhood's freshest years,
That hand was still my stay;
And when my cheeks were wet with tears,
It brushed them all away;
It wiped the moisture from my brow,
When I returned from play;
It rested lightly on my head,
Whene'er I knelt to pray.

And what if o'er that boyish brow,
Which then was smooth and fair,
The hand of Time hath written now
The history of care!
Shall I not love my *Mother's hand*,
Which smoothed my curling hair,
And held the parted locks away,
That she might kiss me there?

Yes! Time may write his varied lore
On this pale brow of mine,
With gathered volumes heap it o'er,
For every page a line—
But yet 't will bear two burdens more,
Most cheerily I opine,—
The pressure of thy gentle kiss,
That tender hand of thine.

[*California Pioneer*.

AN IRISH MODE OF SERVING A WRIT.—The following from a late Irish paper, is as rich as anything which the author of "Charles O'Malley," or his rival he of "Handy Andy," could invent:

Two or three days since an Irish gentleman, whose solicitor had vainly endeavored to serve a writ on an ex-M P. for an Irish borough, who resides at the West-end of the metropolis, hit upon the following mode: Having sealed a stone bottle with an imposing crest, and marked it "potheen," he forwarded it by an intelligent lad of thirteen, who was previously well instructed, as a present from a friend, in the West-end, with instructions to be delivered only to himself. The bait took. The old Irish follower who acts as duenna to Mr. ——, as his guardian against the too captivating approaches of bailiffs, did not think there was anything to apprehend from a child, bearing a bottle of the "native."—She never read Virgil, and knew nothing of the "Timeo Danaos." The master was called, and the present handed duly over "There is a note, I believe, in the wrapper, sir," observed the messenger, "perhaps it would require an answer" The ex-M. P. undid the newspaper in which the present was folded, and took out an envelope. "There's a writ in that, sir," cried the youngster, "you're served," and bounded through the passage, was out of sight in an instant, while the ex-senator looked as if he was converted into stone. Molly, with a wet dish-cloth, which she flung after the lad, foamed with rage at being made the involuntary instrument of such a ruse. But the unkind cut remained behind. Seeing her master quite out of sorts after dinner, she philosophically urged him to make the best use of a bad bargain, and take some of the "potheen," opening the bottle for the purpose; but who can express her indignant amazement, at finding the contents were *agua pura!* She vented a volley of oaths, in mingled Celtic and Saxon against the "hang-gallows gossoon," by whom she had been thus doubly deceived.

POSTAGE.—Circulars, advertisements and business cards, are chargeable with one cent postage when pre-paid, and transported in the United States mails under 3,000 miles. If not pre paid, then with two cents postage each. The same rates apply when sent in packages, unless the package be so sealed as to prevent the contents from being clearly ascertained, when they are chargeable with letter postage by weight.—*Washington Star.*

PRESTO CHANGE.—A young and very pretty lady, riding in the cars, was observed to have a piece of "court plaster" on her lip. When the cars had emerged from one of the long covered bridges, into the light, it was observed to have disappeared; but the eye instantly detected it clinging to the lip of the young man who sat on the seat with her! They both looked as innocent as if they "hadn't been doing nothing."

An eminent psychologist has decided that spirit-rappings are produced by phantom postmen engaged in the delivery of dead letters.

TOO SMALL.—A sick man was told that nothing could cure him but a quart of catnip tea. "Then I must die," said he, "I don't hold but a pint."

The man who sighted the sun with a gun barrel, coming across the plains, is perfectly convinced the earth is stationary. He says the sun went right past the "eend" of his gun.

A patent has just been taken out in France for making sugar from pumpkins. The quantity produced will be at least as great as could be obtained from an equal quantity of beet root.

There is a town in Maine called Random. A resident of the place being asked where he lived, said he lived at *Random*. He was taken up as a vagrant.

The man who re-traced the past, is supposed to have been a harness maker.

The latest labor saving machine announced, is one for sowing wild oats.

More than half the clocks made in Connecticut are sent to England.

Her Driesbach, the lion tamer, has been led to the hymenial alter by a Buckeye belle.

The man who had "conscientious scruples" has traded them to a druggist for *drams*.

A man caught in a railroad collision remarked, that presence of mind is good, but absence of body was better.

The "Know Nothings" are said to number seventeen hundred in Washington city.

Women are seldom sailors, but they sometimes command *smacks*.

The man who was charged with electricity, has been acquitted.

Excuses are the pickpockets of time.—The sun does not wait for his hot water, or his boots, but gets up at once.

QUARTZ ROCK JEWELRY.

BARRETT & SHERWOOD

BEG leave to announce the arrival of a celebrated LAPIDARY ARTIST, engaged especially in the East for them. The machinery for this exquisite branch of their business is of the most improved and perfect description, being ordered for their establishment here, without any regard to cost.

They are now able to cut and test all kinds of precious stones and gems; no longer therefore, need the curious treasures of our soil and mines remain unregarded and undeveloped. Quartz rock mixed with gold, when cut and polished, makes the most beautiful and unique style of jewelry. Rings, Pins, Studs, Seals, Cane Heads, Coat Buttons, and a hundred different things, can now be manufactured from it, that for beauty of design and elegance of finish would be highly appreciated in the Eastern States, rendering them, above all other souvenirs, the most superior for home presents. Call and see them at

BARRETT & SHERWOOD'S
Montgomery street, one door from Commercial street, San Francisco.

N. B.—Quartz mixed with gold, suitable for cutting, purchased at from one to five hundred per cent., above the net gold value. feb10

BUT PEACE AND PLENTY HERE!

THE PROPRIETORS OF THE RAILROAD BAKERY AND COFFEE SALOON, 48 *Commercial street, San Francisco*, between Battery and Front, return thanks to a generous public for the very liberal patronage bestowed upon them for the past twelve months, have for the purpose of better accommodating the public, and somewhat relieving the Commercial street side from its continual and overflowing crowds, arranged and fitted up their brick building (directly in the rear,) No. 87 Clay street, with much care, taste and expense, for a Breakfast, Lunch and Supper Room, and the same will be opened to the puvlic on Monday the 15th March, 1854, where every article will be manufactured on the premises, from the very best material, with the utmost care, taste and cleanliness—every branch of the business being under the immediate supervision of experienced and thorough workmen. We being our own Landlords, and manufacturers of our own articles, in all their branches, as well as our own dairymen, give us facilities over all other like establishments. There will be no connection between the Clay and Commercial street sides until we erect our new building on Commercial street the coming season, only so far as the whole is under one general supervision.

GLORIOUS NEWS
For the Toiling Million!!!

"WINN"

AGAIN AT THE "FOUNTAIN HEAD,"

WITH A DETERMINATION to make it what it was previous to his leaving it

THE PATTERN RESTAURANT OF CALIFORNIA;

And we now call upon the public in general and our friends in particular, to sustain us in our efforts to keep the price of GOOD BOARD in San Francisco, where we have ever kept it, within the reach of the toiling mechanic and laborer, as well as the millionaire; and in conclusion, we ask the public to remember the course pursued by Restaurants throughout the city the moment we had retired from the field. Do you recollect how suddenly the old Bills of Fare were removed from the tables and new ones placed thereon, with prices about double? and all because WINN was not about to regulate the matter. Don't forget the place and number where you are properly cared for in price and quality—

Wonderful Changes

GOING ON

Throughout the World!!!

BUT none has taken place within the last month, of half the importance to the people of California, as the one among Restaurant and Hotel Keepers upon the announcement that

M. L. WINN HAD FAILED.

The second or third day after he had left the

"Fountain Head"

THE PRICE OF BOARD WAS ADVANCED

About one-half by all the Restaurants in Town.

and even those holding a little brief authority at the "Fountain Head," followed in the footsteps of their illustrious predecessors in the attempt to FORCE the people to pay DOUBLE the former price for Board—and that, too when paovisions cost mere nothing.

WILL THE PEOPLE SUBMIT TO SUCH IMPOSITION? If not, then

RALLY TO THE "FOUNTAIN HEAD,"

Where will be found a Bill of Fare nearly as low as in any of the Eastern Cities.

Since our return to our old position, placards may be seen upon nearly every restaurant in the city, "Potatoes and bread served with all dishes of meats free of charge." What a wonderful change! Four weeks ago it was declared to be a losing game to furnish these things without pay, and the people had to pay for them because WINN was out of the way, and the restaurant keepers could do as they pleased—but mark the difference, WINN IS AGAIN AT THE "FOUNTAIN HEAD," and down comes the prices, and the people are called upon to patronize these very philanthropic gentlemen for the only reason that they furnish board at a fair rate, whenthey are compelled to do so by the proprietor of

"WINN'S FOUNTAIN HEAD."

With these things in view we call upon the people to come to the "Fountain Head" *en masse* and live well and cheap while they can, for when we retire again from business, board will cost double in San Francisco what it does to-day.

REMOVAL.

Dr. J. C. Young,

HAS removed his office from 226 1-2 Dupont street to the corner of Montgomery and California streets, opposite the Banking House of Page, Bacon & Co., where he will be happy to consult with his former patrons, and treat scientifically and with discretion, all those who may require the services of a physician. The success of Dr. Young since his advent in this State, has been without a parallel, and he hopes by continued and untiring application to his profession, to remove from the public mind that lack of confidence which has so unhappily existed in regard to the medical profession in the State of California.

P. S.—All letters enclosing $10 will receive immediate attention. Direct box 735, Post Office, San Francisco.

N. B.—All papers in the State will please insert as special notice the above, for one month, and send bill to J. C. Young, M. D. dec4-tf

---

DR. J. C. YOUNG,
OF SAN FRANCISCO.

READ AND REFLECT.

"If there is a hereafter,
(And that there is, conscience uninfluenced,
And suffered to speak out, tells every man,)
Then it is an awful thing to die.
More horrid yet to die by one's own hand,
Self murder—name it not!
Shall Nature, swerving from her earliest dictate,
Self preservation, fall by its own act?
Forbid it, Heaven."

THE indulgence in secret practices is the most certain, though not always the most immediate and direct avenue to destruction. Physicians of all ages have been most unanimously of opinion that the loss of one ounce of the seminal secretions, by unnatural aid or emissions, weakens the system more than the abstraction of forty ounces of blood. One of the FIRST writers on medical jurisprudence states that three-fourths of the insane owe their malady to such abuse.

How important, then, it is—for every one having the least cause to suspect any trouble in that way, should attend to it immediately; even one single occurrence should be sufficient to cause doubt, and much more so if the person had ever indulged in the soul-killing habit. The treatment pursued by the justly celebrated Dr. J. C. Young, in cases of seminal weakness, impotency, sterility, nervous debility, and paralysis, (the last is the most dangerous, and when it once occurs, is incurable,) is surpassed by any physician in the country. It is the same as that followed by him for years, under the guidance of the world-renowned *Record* of Paris, and *Acton* of London. Dr. Young's office is corner of Montgomery and California streets, opposite Page, Bacon & Co., San Francisco, California, where he can be consulted upon that and all other private diseases, with the utmost confidence and secresy. Dr. Young will warrant a perfect and permanent cure, or make no charge.

N. B.—Letters enclosing $10 will receive prompt attention. The doctor's time being so much taken up that he cannot attend to letters unless paid for it.

P. S.—Apartments privately arranged.

A CARD.

FROM Dr. J. C. Young's Private Medical Office.—TO THE AFFLICTED.—In this age of progress, when science is developing itself in such a manner as to appear almost miraculous, everything in common place is looked upon as not worth notice. In view of this fact, DR. YOUNG, corner of Montgomery and California streets, San Francisco, California, has concluded to leave the beaten track hitherto pursued by most scientific physicians, (that of waiting for the public to find you out alone,) and publish to the world, as much as may be, his knowledge of the healing art, to let those who are in need of assistance know where they can find relief, without fear of being imposed upon.

In continuation of this object, Dr. Young would say that for the past ten years he has pursued the practice of medicine in one of the largest cities of the United States, with the highest success, and that his standing as a physician is without reproach, having at one time been lecturer at the University of Pennsylvania on venerial diseases, &c.

Upon all these considerations, Dr. Young has confidence in introducing himself to the public, knowing that they will sustain well earned merit.

The following are a few of the many testimonials, which have appeared in the public journals the last few years:

[From the Boston Medical Journal.]

Although we are opposed to the system of advertising, for good and sufficient reasons, still we deem it but justice to say that Dr. Young is one of the most industrious and indefatigable votaries of the medical science in the United States.

[From Professor Jackson.]

The subscriber is personally acquainted with Dr. Young, and has seen much of his practice, and can bear testimony to his merits as a practitioner.

[From the New York Herald.]

The eminence of this distinguished gentleman in his profession, and the very extended opportunities possessed by him for the observation of venereal disease, makes his services invaluable to those afflicted with the above complaints.

MEDICAL ADVICE.

DR. J. C. Young, who has become so celebrated for the thousands of cures which he has performed on old, chronic, mercurial, syphilitic, and all private diseases, without mercury, is consulted daily at his office, corner of Montgomery and California streets, from 9 A. M. to 8 P. M. A cure guaranteed or no pay.

Dr. J. C. Young has probably had more practice in venereal diseases than any other physician in California. He cures all the most aggravated cases of this disease, and mild ones he removes in from two to five days. The doctor has for many years, been known as the most eminent and successful physician in the United States, and what is more important to the patient, he always effects a speedy and permanent cure.

Travelers, seamen, miners and others, who wish to be cured without mercury, hindrance from business, or exposure to friends, should apply to him as soon as possible, and a perfect cure will be guaranteed in all curable cases. Recollect the name and number, Dr. J. C. Young, corner of Montgomery and California streets.

Office open from 9 A. M. to 8 P. M.

CONSTITUTIONAL DEBILITY,

OR SEMINAL WEAKNESS.—Dr. Young addresses those who have injured themselves by private and improper indulgences in that secret and solitary habit which ruins the body and mind, unfitting them for either business or society. The following are some of the sad and melancholy effects produced by early habits of youth, viz: weakness of the back and limbs, in pain the head, dimness of sight, loss of muscular power, palpitation of the heart, dyspepsia, nervousness, irritability, derangement of the digestive functions, general debility, symptoms of consumption, &c.

Mentally the fearful effects on the mind are more to be dreaded. Loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrust, love of solitude, timidity, &c., are some of the evils produced.

All persons who are afflicted with any of the above symptoms should not fail to call on Dr. Young, and be at once restored to perfect health. Let no false delicacy prevent you, but apply immediately, and save yourself from the dreadful and awful consequences of this terrible malady.

WEAKNESS OF THE ORGANS
immediately cured and full vigor restored.

DR. J. C. YOUNG,
Corner of Montgomery and California streets.

For sale as above the celebrated French Lunar Pills, these pills are now acknowledged by the medical fraternity to be the only safe, mild and efficacious remedy to be depended upon in long standing cases of suppression, irregularity, or stopping of the functions of nature, the neglect of which is the source of such deplorable effects on the female frame.

N. B.—These pills are highly celebrated as a preventive.

Price $5 per box. DR. J. C. YOUNG,
Corner of Montgomery and California streets.

PRIVATE MEDICAL OFFICE.

HUNDREDS of those who have contracted disease are disappointed of a cure by not calling on DR. YOUNG at first. He will forfeit any sum if he fails to cure any case that may come under his care, no matter how long standing and afflicting, such as ulcers, tumors, nodes, bunches, pimples on the face and body, pains in the bones and joints, wakefulness, trembling, copper-colored sores, wasting of the bones, emaciation, loss of appetite, strength and flesh, sores in the nose and ears, loss of hair, weak eyes, itching humors, &c., &c. Many persons, after being relieved of all external appearances of private disease, suppose themselves cured, but after a few months find they are troubled with various symptoms which they never had before, and which they find it impossible to releive.

To all who are afflicted in this way, Dr. Young would particularly recommend a trial of his skill. The symptoms with which you are troubled are caused by taints in the blood, which sooner or later will destroy your health and happiness. No person who has ever had an attack of any private complaint should fail to consult Dr. Young, and take a few bottles of his invaluable purifying medicine as they can rest assured that their blood is in a perfectly pure and healthy condition, and that every trace of disease is removed from the system.

Recent cases cured in from two to five days, without change of diet or hindrance from business, or no charge.

HIGHLY IMPORTANT DISCOVERY.

DR. J. C. YOUNG, who is celebrated for curing all private complaints of both sexes, has discovered a remedy for the cure of old, long standing cases of gonorrhœa and gleets, which he has tried in more than one hundred cases, successfully, many of which had baffled the skill of eminent physicians for years; and in not one single case has it failed, nor can it ever fail, as the nature of the remedy is such that it strikes at the root of the complaint, and eradicates it completely in a few days. New cases cured in an incredibly short space of time, without change of diet or hindrance from business.

N. B.—A permanent cure guaranteed to all in the shortest possible time, or no pay will be taken.
